

Bio (short)

A technology advocate, community builder and entrepreneur, Todd has spent the last 15 years working for and with large consulting firms, Fortune 500 companies, a technology nonprofit, and his own consulting company. He's created some of the leading open source technology conferences in the country and has worked tirelessly to heighten awareness around the changing economy and the need for technology education. He's spoken to people all over the United States, ranging in groups of 10 to thousands.
